

# Release Notes

## DynaVox Compass Software, Version 1.1.1

This document summarizes the new features and enhancements and corrected issues associated with the release of version 1.1.1 of the DynaVox Compass Software.

### New Features and Enhancements

- This release features the new DynaVox Compass Converter. This is a stand-alone application for Windows that can be downloaded from *myDynaVox.com*. and used to convert a Series 5 *.user* file into a *.bzf* file (Compass page set.)
- This release of the software includes the ability to change the colors of tabs.

### Corrected Issues

- This release of the software corrects an issue that sometimes caused the system to pause for a few seconds at startup. This has been fixed in this release, resulting in faster start ups.
- This release corrects some problems with the Compass software running on an iPad, Windows tablet or computer, or a DynaVox T10 trying to connect to the Internet through a proxy server.
